Dear Mr. Heydenburk:

General Smith has asked me to acknowledge your letter of 17 August and thank you for reminding us of the prophecy of Ezekiel as contained in Chapters 38 and 39.

I am personally inclined to consider these Chapters simply as a general apocalyptic prophecy and not to relate them to specific historical events. Whatever the pertinence of this prophecy to the present world situation, however, I want to assure you that this Source and all others are carefully considered by those with the responsibility for this country's security.

Sincerely,

STAT

Dear Sir,

I have on what I believe to be good and reliable authority information that Russia is going to invade the Land of Israel, and that one of her allies in that effort will be Iran. Further my source says Russia's final defeat will take place in the Holy Land.

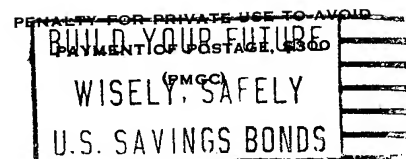

And now I hope you will continue in all seriousness with what I have to say. I am wondering if you are acquainted with the 38<sup>th</sup> and 39<sup>th</sup> chapters of the prophecy of Ezekiel in the Old Testament. For many years level-headed students of this passage have been

saying this - long before the world situation would have warranted anyone making such predictions. The many books and articles containing these comments are easily available for anyone who wishes to verify. So it is not just something read into these chapters in the last few weeks - by some crack-pot fanatics.

My opinion is that it would be wise for our military planners to give serious consideration to this passage of Scripture so pertinent to current problems. Get out your Bible and check for yourself.

Respectfully yours,  
David H. Heydenburk
